**ILLINOIS
SCHOOL
REPORT
CARD**

GRADES : K 1 2 3 4 5

State and federal laws require public school districts to release report cards to the public each year.

Starting in 2009, charter school information is included in district statistics.

STUDENTS

RACIAL/ETHNIC BACKGROUND AND OTHER INFORMATION

	White	Black	Hispanic	Asian/ Pacific Islander	Native American	Multi racial /Ethnic	Low- Income Rate	Limited- English- Proficient Rate	High Sch. Dropout Rate	Chronic Truancy Rate	Mobility Rate	Attendance Rate	Total Enrollment
School	76.6	10.4	4.1	5.1	0.0	3.9	20.5	8.9		0.8	16.4	96.6	414
District	75.0	7.0	10.6	4.3	0.0	3.1	20.5	7.4		0.9	12.5	95.2	13,299
State	53.3	19.1	20.8	4.1	0.2	2.5	42.9	8.0		3.7	13.5	93.7	2,070,125

Low-income students come from families receiving public aid; live in institutions for neglected or delinquent children; are supported in foster homes with public funds; or are eligible to receive free or reduced-price lunches.

Limited-English-proficient students are those students eligible for transitional bilingual programs.

Mobility rate is based on the number of times students enroll in or leave a school during the school year.

Chronic truants are students who are absent from school without valid cause for 18 or more of the last 180 school days.

INSTRUCTIONAL SETTING

PARENTAL CONTACT*		STUDENT-TO-STAFF RATIOS			
	Percent	Pupil- Teacher Elementary	Pupil- Teacher Secondary	Pupil- Certified Staff	Pupil- Administrator

OTHER FINANCIAL INDICATORS				
	2006 Equalized Assessed Valuation per Pupil	2006 Total School Tax Rate per \$100	2007-08 Instructional Expenditure per Pupil	2007-08 Operating Expenditure per Pupil
District	\$228,016	3.88	\$6,780	\$11,189
State	**	**	\$6,103	\$10,417

** Due to the way Illinois school districts are configured, state averages for equalized assessed valuation per pupil and total school tax rate per \$100 are not provided.
Equalized assessed valuation includes all computed property values upon which a district's local tax rate is calculated.
Total school tax rate is a district's total tax rate as it appears on local property tax bills.
Instructional expenditure per pupil includes the direct costs of teaching pupils or the interaction between teachers and pupils.
Operating expenditure per pupil includes the gross operating cost of a school district excluding summer school, adult education, bond principal retired, and capital expenditures.

ACADEMIC PERFORMANCE

OVERALL STUDENT PERFORMANCE

These charts present the overall percentages of state test scores categorized as meeting or exceeding the Illinois Learning Standards for your school, district, and the state. They represent your school's performance in reading, mathematics, and science.

The 2007-08 school year was the first time that Limited English Proficient (LEP) students took the ISAT or PSAT (with accommodations) instead of the IMAGE test. Therefore, any comparisons with prior year's achievement levels for LEP students should be made with appropriate caution.

OVERALL ILLINOIS STANDARDS ACHIEVEMENT TEST (ISAT) PERFORMANCE

ISAT PERFORMANCE

These charts provide information on attainment of the Illinois Learning Standards. They show the percents of student scores meeting or exceeding Standards for the grades and subjects tested on ISAT.

PERFORMANCE ON STATE ASSESSMENTS

Federal law requires that student achievement results for reading, mathematics, and science for schools providing Title I services be reported to the general public.

The Illinois Standards Achievement Test (ISAT) is administered to students in grades 3 through 8. The Prairie State Achievement Examination (PSAE) is administered to students in grade 11. The Illinois Alternate Assessment (IAA) is administered to students with disabilities whose Individualized Education Programs (IEPs) indicate that participation in the ISAT or PSAE would not be appropriate.

Students with disabilities have an IEP (No Child Left Behind Act). An IEP is a written plan for a child with a disability who is eligible to receive special education services under the Individuals with Disabilities Education Act.

Reading and Mathematics are tested in grades 3 through 8 and 11. Science is tested in grades 4, 7, and 11.

In order to protect students' identities, test data for groups of fewer than ten students are not reported.

ILLINOIS STANDARDS ACHIEVEMENT TEST (ISAT)

The following tables show the percentages of student scores in each of four performance levels. These levels were established with the help of Illinois educators who teach the grade levels and learning areas tested. Due to rounding, the sum of the percentages in the four performance levels may not always equal 100.

- Level 1 -- Academic Warning - Student work demonstrates limited knowledge and skills in the subject. Because of major gaps in learning, students apply knowledge and skills ineffectively.
- Level 2 -- Below Standards - Student work demonstrates basic knowledge and skills in the subject. However, because of gaps in learning, students apply knowledge and skills in limited ways.
- Level 3 -- Meets Standards - Student work demonstrates proficient knowledge and skills in the subject. Students effectively apply knowledge and skills to solve problems.
- Level 4 -- Exceeds Standards - Student work demonstrates advanced knowledge and skills in the subject. Students creatively apply knowledge and skills to solve problems and evaluate the results.

Four Conditions Are Required For Making Adequate Yearly Progress (AYP):

1. At least 95% tested in reading and mathematics for every student group. If the current year participation rate is less than 95%, this condition may be met if the average of the current and preceding year rates is at least 95%, or if the average of the current and two preceding years is at least 95%. Only actual participation rates are printed. If the participation rate printed is less than 95% and yet this school makes AYP, it means that the 95% condition was met by averaging.
2. At least 70.0% meeting/exceeding standards in reading and mathematics for every group. For any group with less than 70.0% meeting/exceeding standards, a 95% confidence interval was applied. Subgroups may meet this condition through Safe Harbor provisions. ***
3. For schools not making AYP solely because the IEP group fails to have 70.0% meeting/exceeding standards, 14% may be added to this variable in accordance with the federal 2% flexibility provision.
4. At least 90% attendance rate for non-high schools and at least 78% graduation rate for high schools.

* Includes only students enrolled as of 05/01/2008.

** Safe Harbor Targets of 70.0% or above are not printed.

*** Subgroups with fewer than 45 students are not reported. Safe Harbor only applies to subgroups of 45 or more. In order for Safe Harbor to apply, a subgroup must decrease by 10% the percentage of scores that did not meet state standards from the previous year plus meet the other indicators (attendance rate for non-high schools and graduation rate for high schools) for the subgroup. For subgroups that do not meet their Safe Harbor Targets, a 75% confidence interval is applied. Safe Harbor allows schools an alternate method to meet subgroup minimum targets on achievement.

2009 Lowell School Improvement Plan Building Addendum Template

Target Area for Student Improvement

Percentage of Students that Meet/Exceed

ISAT Reading	2006	2007	2008	2009
3rd	94.3%	93.7%	98.7%	95%
4th	87.1%	94.3%	94.8%	98%
5th	86.3%	89.6%	94.4%	90.2%

Increase the percentage of students who exceed state standards in reading by 2% on the ISAT reading tests over a two year period- the goal is to move from 51.6% to 53.6% in third grade, move from 58.8% to 60.8% in fourth grade and from 40.9% to 42.9% in fifth grade by 2011

Percentage of Students that Meet/Exceed

ISAT Math	2006	2007	2008	2009
3rd	95.8%	95.8%	100%	95%
4th	96.7%	96.4%	98.7%	100%
5th	92%	96.4%	98.9%	92%

Increase the percentage of students who exceed state standards in math by 2% on the ISAT math tests over a two year period- the goal is to move from 68.3% to 70.3% in third grade, move from 66.6% to 68.6% in fourth grade and from 22.9% in fifth grade to 24.9% in fifth grade by 2011

Rationale for Target Selection

Reading- Although scores remain above 90% at all grade levels; we are concerned that the overall reading scores dropped in third and fifth grades as well as in the subcategories of reading. The overall drop in the percentage of students was 3.7% at third grade and 4.2 % in fifth grade. These scores have fluctuated since 2000. It is our intent to continue to address these slight decreases by finding the right intervention for each student in order to help that student perform at grade level in reading. These scores reflect our smaller student population since we lost over 120 students due to redistricting. 2009 may be a baseline level for ISATs and we can better examine the new trends over the next four years.

Math- Overall scores were proficient and consistent. The examination of the math local assessments indicated that we should focus more on shaded fractions, comparison of fractions at the intermediate level, and time/ elapsed time as a school. We have had four changes in Title 1 teachers over the past four years which interrupted the continuity and consistency of services. Although scores remain above 90% at all levels, we do notice decreases in subcategories for fifth grade. Third grade fluctuates and fourth grade shows slight increases. This is a concern but does not yet indicate a weakness at those grade levels. Scores have fluctuated over the past nine years. This was our first year as a smaller school and our scores reflect that.

Strategies for Improvement

Reading- Refine grade level interventions through the problem solving process in grades K-5(RTI), choose interventions that are based on student needs in order to help students achieve grade level standards, continue to benchmark students' reading fluency in grades 2-5 and ISEL in K-1 three times a year, use multiple data points to pinpoint instructional needs of struggling students in reading

Math- Increase Title 1 math support to a four day program, refine grade level math interventions based on students' needs through the problem solving process K-5 (RTI), use multiple data points to pinpoint instructional needs of struggling students in math, add FASTT math computation program as a math intervention in grades 2-5, focus on time/elapsed time, shaded fractions and comparison of fractions

Professional Development

Reading- Daily Café website access, differentiated instruction workshop, analyze ISAT and local assessment data, release time for teachers to meet to discuss interventions and make changes based on students' needs, use local assessments to pinpoint what struggling students need

Math- Release time for teachers to meet to discuss interventions and make changes based on students' needs, use local assessments to pinpoint what struggling students need, FASTT math training, discuss and develop Tier 1-3 math interventions, analyze ISAT and local assessment data
